Guitar and Guitar Finish Select Screens

Which guitar are you going to use to shred up the stage? Purchase different guitars and guitar finishes in the store.

Career Status Screen

From this screen you can see your overall career status, change your character, change your guitar, or buy gear.

Store

Quick Play

Jump right in and start shredding! In Quick Play you're free to play any song you've currently earned or unlocked.

Multiplayer

Get ready for dueling axes of distortion! In the Multiplayer mode there are three different ways to play:

Face-Off: Two players compete against each other while alternating play on the same note chart. Each player can adjust the difficulty to fit their skill level.

Cooperative: Two players work together to make it through a song and get the highest score possible! In this mode one player plays the lead guitar and the other player either plays the rhythm guitar or bass guitar. Each player can adjust the difficulty to fit their skill level.

If you want to succeed in cooperative mode you really need to work as a team. You share a rock meter with your co-player, and to activate star power you'll both need to tilt your Guitar Hero SG Controller at the same time. Unlike the other multiplayer modes, in this mode you can fail a song!

Pro Face-Off: This is the ultimate duel for guitar champions. Two players battle it out playing the same note chart at the same time on the same difficulty level. Finish any Career level to unlock this mode.

Training

Kick out the jams like you mean it. Guitar Hero II offers two forms of training:

Tutorials: These interactive tutorials teach you everything you need to know about Guitar Hero II and are highly recommended for both beginners and experienced players.

Practice: You can take any song in the game that you've currently played and can practice any part of it. You can choose to play the song at the normal setting, or you can slow the song down to really help you out.

Tune your settings here. You can access many of these options from the in-game pause menu as well as from the main screen.

Audio Settings: Change the volume of the band (background music in game), guitar (the part you're playing in game) and sound FX (crowd volume, background noises) in the game. You can also turn Stereo Sound on and off.

Video Settings:

Lefty Flip (Player 1 and Player 2): Flips the note locations around on the screen for players that like to hold to controller in their left hand.
Widescreen Display: Adjusts the picture to fit widescreen televisions.
Progressive Scan: If your television supports progressive scan (and you have the correct component cables), you can turn progressive mode on using this option.
Calibrate Lag: Some televisions have an audio visual lag that can make it difficult to play the game. Use this screen to calibrate your television's lag.

Manage Bands: Delete or rename the bands you've created.

Data Settings: Save your game progress, load a game from the memory card, or turn auto save on or off.

Bonus Videos: Watch the bonus videos you've purchased in The Store.

Credits: Check out all the hard-workin' people who helped make this game possible!

naming your profile

Coming up with a cool band name is as important as deciding which post-concert party you're going to crash. This band name will serve as the name of your Guitar Hero II Profile. You can edit this name later in "Manage Band" located in the Options Menu. Guitar Hero II's gameplay consists of pressing the Fret Buttons and strumming on the Strum Bar UP or DOWN in sync to the notes that are scrolling toward you on screen.

Basic Notes:

1. Hold the Fret Button that corresponds to the note on the screen.
2. Strum on the Strum Bar UP or DOWN to play the note. (note: If you see a string of the same notes you don't have to release the corresponding Fret Button for each note, You can keep it held down.)

Long Notes (otherwise known as Sustains):

1. Hold the Fret Button down
2. Strum
3. Keep the Fret Button down until the whole note has played.

Chords:

Chords are two or more notes played at the same time. These can come in the form of Basic Notes and Long Notes.

the whammy bar

Press the Whammy Bar in and out on Long Notes to add your own style to each song. You'll notice that when you are playing Long Notes, the sound of the note will actually change and bend to reflect how much you're pressing on the Whammy Bar.

the rock meter

The Rock Meter is the ultimate gauge for how much you're rocking in the game. This meter has four settings.

Green: Duuuude! There is no stopping you! You're hitting just about every note thrown at you.
Yellow: Keep on keepin' on! You're putting on an 'ok' show. The crowd likes your moves...but they're not scrambling to make a bootleg of your performance.
Red: Lame! At this rate you'll be lucky if you can get anyone to help you load your gear into the van after the show.
Flashing Red: Ouch! You're moments away from failing the song unless you get your act together. Keep this up and you'll be booted off stage and escorted from the venue.

the score meter

Every note you hit scores you points. If you can nail a series of notes perfectly then you'll receive a handy 'Score Multiplier" which is 2-4X the value of each note you hit. Mess up and your score multiplier vanishes.

the Star power meter

Nothing blows an audience away like Star Power. Fill this meter up and you can unleash all the glory of Star Power and achieve scores you never thought possible. Star Power automatically doubles any score multiplier you currently have.

(The Star Power Meter needs to be at least half-full for Star Power to be available to use it.)

difficulty settings

The first thing every budding rock star has to decide is what difficulty they'd like to play the game.

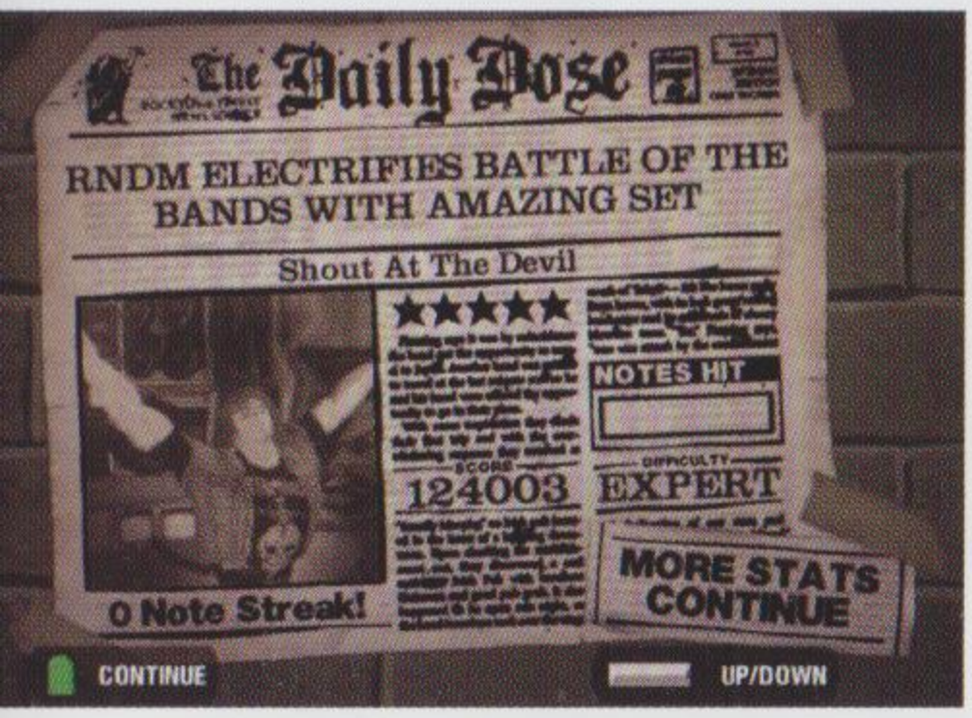
Easy: The perfect setting for beginner players. This difficulty setting only utilises three fret buttons - the green, red, and yellow.
* Note: Easy Difficulty does not give you access to the store.
Medium: This difficulty setting brings notes a little faster and utilizes four fret buttons- the green, red, yellow, and blue.
Hard: All five fret buttons are used, and some advanced skills are needed if you expect to rule in this difficulty setting.
Expert: This setting separates the champs from the chumps! This insane difficulty will have you frantically using all five fret buttons and pulling off lots of different chords.

"Expert: This setting separates the champs from the chumps!"

Song results Screen

The whole music industry reads 'The Daily Dose' newspaper...from this screen you can check out your latest performance!

Grade: The scale goes from up to 5 Stars, with 5 being the best. Higher grade scores earn you more cash to spend in the store in Career mode.
Score: This is the overall score you received on your song.
Note Streak: Find out how long you went without making a mistake and missing a note.



Notes Hit: This tells you the percentage of notes you hit in the song.

(If that wasn't enough data for you... there's even more stats available by clicking on the 'More Stats' option)

HOW DO I GET STAR POWER?!

Gain Star Power by nailing a series of star-shaped notes that glow. You have to nail the entire group, otherwise you're out of luck. You can gain even MORE Star Power by using the Whammy Bar on long Star Power notes. Press the Whammy Bar a bunch to get the most of those long Star Power Notes.

Once your Star Power Meter is at least half-full it'll flash and that means you're ready to tilt your Guitar Hero SG Controller! To tilt, hold the Guitar Hero SG Controller straight up! Once Star Power is activated you can lower your Guitar Hero SG Controller back down and continue jamming. Star Power will stay activated until the Star Power meter runs out.

(In no position to tilt the controller up? You can activate Star Power by pressing the SELECT button.)

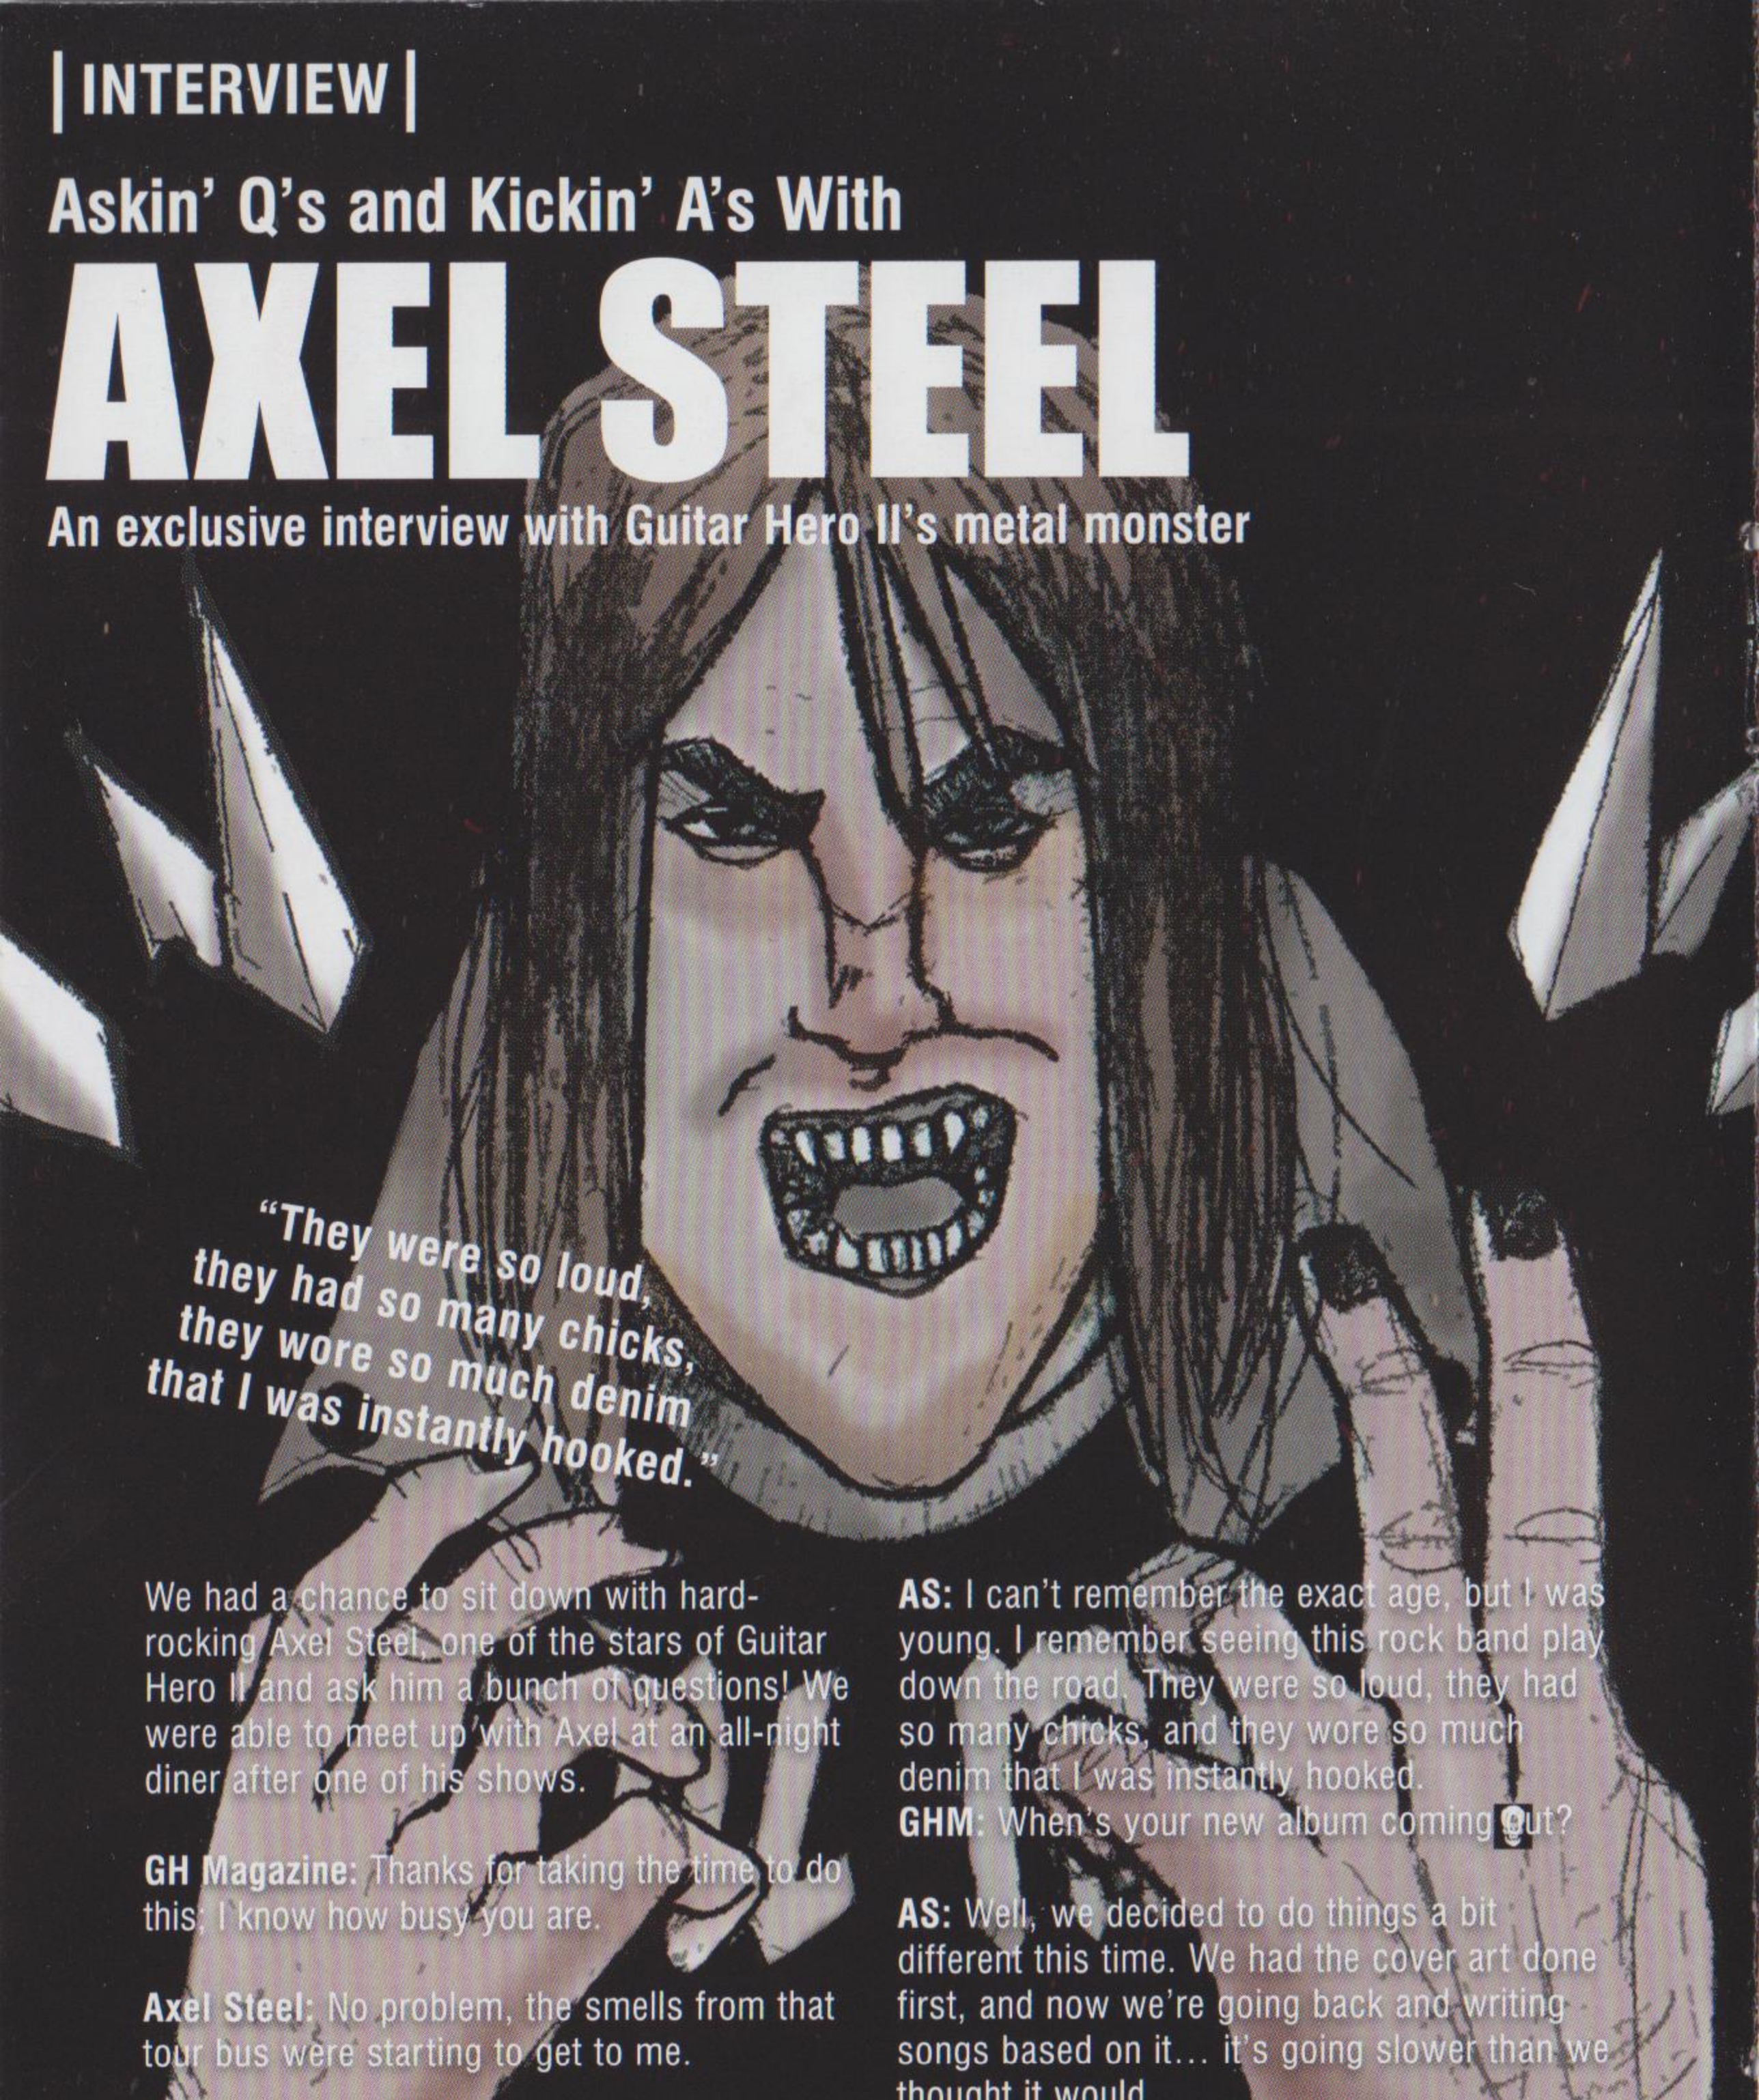
Askin' Q's and Kickin' A's With

AXEL STEEL

An exclusive interview with Guitar Hero II's metal monster



"They were so loud, they had so many chicks, they wore so much denim that I was instantly hooked."

We had a chance to sit down with hard-rocking Axel Steel, one of the stars of Guitar Hero II and ask him a bunch of questions! We were able to meet up with Axel at an all-night diner after one of his shows.

GH Magazine: Thanks for taking the time to do this; I know how busy you are.

Axel Steel: No problem, the smells from that tour bus were starting to get to me.

GHM: What kind of music are you listening to now?

AS: There's this new type of metal out of Norway which, like takes metal and smothers it with a gooey layer of more metal, sprinkles it with bits of metal with and roasts it on an open fire until it's cooked all the way through.

GHM: Sweet. So when did you first pick up a guitar?

AS: I can't remember the exact age, but I was young. I remember seeing this rock band play down the road. They were so loud, they had so many chicks, and they wore so much denim that I was instantly hooked.

GHM: When's your new album coming out?

AS: Well, we decided to do things a bit different this time. We had the cover art done first, and now we're going back and writing songs based on it... it's going slower than we thought it would.

GHM: So what's the album cover look like?

AS: It involves a snake somehow holding a machine gun... and he's shooting all these monsters, but the monsters are like smiling...like they like it... yeaahhhh!

At that point in the interview Axel saw his tour bus taking off down the street and he took off chasing after it.

CLIVE WINSTON

Few rock stars have led a life as diverse as Clive Winston. He's one of the shining stars of Guitar Hero II and just a glimpse at his accomplishments and you'll know why.

At the age of 17, Clive left his boarding school in the middle of the night and formed his first band in London.

Broke big with his first single "Everyone is Everyone's Acquaintance"

Put out a string of #1 albums and toured the world to sold-out venues.

Organised "Sideburn Aid", a charity concert for people unable to grow even sideburns.

Tired of trying to find the secrets of the Far East, Clive took off in search of the mystical secrets of the Midwest. He gave up outside of Toledo, Ohio.

After a brief hiatus, Clive returned with his hit "Clive Alive" album and tour.

Once played 12 different solos on 12 guitars simultaneously in front of the Queen of England.

Most recently released a hugely successful rock opera based on the game air hockey.
